

Eastto METAL DRAWING 44

INTRODUCTION:

EASTTO METAL DRAWING 44 is non-staining, water soluble, cream coloured paste that can be applied as neat or in emulsion form. It is produced from soap and fat in a well balanced mixture.

APPLICATION:

EASTTO METAL DRAWING 44 is used as an effective coolant in the wire drawing operations. The dilution ratio, which is normally between 1 to 5%, is depended on the gauge of the wire to be drawn. It can also be used in deep drawing of automotive bodies and metal sheets, tube drawing, forming, spinning and other similar medium to heavy duty operations of carbon steels and ferrous metals.

PERFORMANCE LEVEL:

EASTTO METAL DRAWING 44 is a proprietary product.
