

Eastto BRAKE FLUID DOT 3

Eastto BRAKE FLUID DOT 3 is a red dyed high performance premium quality fully synthetic heavy duty hydraulic brake fluid. It contains anti-oxidant, metal de-activator and corrosion inhibitor for long service life of brake fluid and brake components. Due to its high Equilibrium Reflux Boiling Point (above 205°C), the vapour locking problem is greatly reduced in high temperature operating condition, especially in cities where stop-and-go conditions require frequent application of brakes. Its excellent low temperature characteristics enable it to function up to minus 40°C.

APPLICATION:

EASTTO BRAKE FLUID DOT 3 is recommended for modern hydraulic braking systems including both disc and drum type.

PERFORMANCE LEVEL:

FMVSS 116 DOT -3
SAE J 1703
IS: 8654 - 2001

CHARACTERISTICS	EASTTO BRAKE FLUID DOT 3
Colour	Red
Kinematic Viscosity at 100°C., cSt,	2.2
Kinematic Viscosity at (-) 40°C., cSt,	1500
Equilibrium Reflux Boiling Point, °C. Max.	205

PACKING: 210 Liters Drum
